Dear Mr. Shenefelt:

The course "CPR Pro for Professional Rescuers" has been approved by the Texas Department of Health. It received approval based on the fact that the American Health and Safety Institute sought and was granted approval by the Continuing Education Coordinating Board for Emergency Medical Services (CECBEMS). TDH EMS Rule 157.38 allows the Department to accept courses approved by a nationally accepted accrediting agency, such as CECBEMS. This would also apply to other courses ASHI may currently have or develop.

If you have any questions, please do not hesitate to contact me at (512) 834-6700.

Sincerely,

Eddie Walker  
Texas Department of Health  
EMS State Training Coordinator
