FOR IMMEDIATE RELEASE: June 26, 2006

Local Business Recognized for Exemplary Practices by the American Heart Association™

Mineral Wells, TX - The American Heart Association, the premier national organization for healthcare related education, announced on June 23, 2006 that Mineral Wells based Healthcare Services by A.C.T.N.T., LLC has been recognized as the number two revenue generating AHA Training Center in the North Texas Region. This recognition is considered extraordinary since this independently owned business is in the same region with some of the largest Health Systems in the southwestern United States.

There are a total of 83 American Heart Association™ Training Centers in the North Texas Region and they include large Healthcare Systems such as Parkland, Harris Methodist, Baylor and many others. Healthcare Services by A.C.T.N.T., LLC, the number two Training Center, is owned by Robert Twite, RN, of Mineral Wells, TX. These Training Centers are under contract with the AHA to provide healthcare related education to everyone from the basic layperson taking CPR, to the advanced healthcare provider who needs intensive training in advanced life support for victims of trauma or medical emergencies, of all ages. Robert Twite, RN and Healthcare Services by A.C.T.N.T., LLC have become successful because of a long-standing reputation of providing quality education in the healthcare community, and "the American Heart Association™ respectfully recognizes this superior effort in assuring successful student training through exemplary practices", according to Kate Asay, Regional Manager of ECC for the American Heart Association™.

Healthcare Services by A.C.T.N.T., LLC, headquartered in Mineral Wells, TX, provides healthcare related education and products to the entire spectrum of healthcare providers. Along with the more common training in basic and advanced life support, A.C.T.N.T. also develops custom training in many area of healthcare. A.C.T.N.T has also developed a line of proprietary reference material for use by healthcare professionals during both adult and pediatric emergencies. This series of material, named CODE CARD Emergency Reference Material® has been used throughout the United States in large and small healthcare facilities to improve the care of both the adult and pediatric patient. Robert Twite, RN is also a frequently requested guest speaker at meetings, seminars and related functions because of his unique and entertaining presentations on a variety of current healthcare topics. For more information about Healthcare Services by A.C.T.N.T., LLC, visit www.actnt.com.
